Public Hearing on the request of Molly Machmer-Wessels, Woodland Design Group, on behalf of Andrew Wolfort and Anna Strohl, 17715 Shaker Boulevard, to the Board of Zoning Appeals for variances to the garage size, outdoor parking spaces, and height of a brick pier. The applicant proposes to construct an addition, which includes a four-car, 952 square foot attached garage. Code allows a maximum of a four-car, 800 square foot garage in the SF-1 Single Family Residential zoning district. A new driveway area includes two outdoor parking spaces adjacent to the garage entry. Code allows a maximum of one space outdoor parking pad, screened from the view of the neighbors. The parking area is proposed to be screened with evergreen trees. A 6 foot 4 inch tall brick pier with an address marker is proposed at the driveway entry, 12 feet behind the Shaker Boulevard sidewalk. Code limits a brick pier to 3 feet tall in the front yard per the wall regulations.
