PROJECT SCOPE

- For Signage-Only and Full Façade projects, the final project scope and design will be reviewed and approved with the support of a Design Specialist assigned and paid for by the City *before* contractor bids can be solicited.
- Three contractor bids are required for all trades (ex. Electrician, mason, painter, etc.). If hiring a General Contractor (GC) to manage the project, three GC bids are required. Each GC bid does not need to include multiple bids for each trade.
- It is highly recommended that a General Contractor is utilized for Full Façade projects.
- Work CANNOT begin on the property until a notice to proceed is issued. A notice to proceed will be issued when a contract is fully executed between the City and the property/business owner and a purchase order is established.
- All City requirements must be met including securing the necessary building permits and approvals from the Architectural Board of Review, Board of Zoning Appeals and City Planning Commission as needed.
- All contractors MUST be licensed to work in the City of Shaker Heights and secure all necessary building permits. If any work is completed without the proper permits, the project will no longer be eligible for a rebate.
- City Economic Development staff will arrange meetings with the Design Specialist (if needed), set up a Commercial Project Review meeting (if needed) and conduct site visits before, during and after construction.
